MONEY RAISED FOR GOOD END

The Mardi Gras Receipts Will Benefit the Poor.

The coming Mardi Gras ball in aid of the Honolulu Eye and Ear Infirmary has attracted much attention from the social side. The business side appeals to those who are interested in giving medical assistance to patients who cannot afford to pay for the same out of their own pockets.

To raise funds in aid of the Honolulu Eye and Ear Infirmary, which was established in June, 1899, by the efforts of Dr. Sloggett and some friends, who, seeing the necessity for an institution where the indigent and very poor, irrespective of nationality or creed, could be treated free of charge and get that skilled assistance and care impossible for them to procure in their own homes, these gentlemen organized themselves into a hospital board of trustees and solicited funds for the equipment and expenses of the infirmary. The response was generous on the part of the Honolulu public, the Chinese colony subscribing one thousand of the three thousand dollars collected, and people of this nationality have been in the majority of those seeking relief of the institution.

During the plague, and the subsequent stringency in money, subscriptions fell off almost to nil and the management found it difficult to keep the institution open, through lack of funds. In this dilemma a number of ladies volunteered to go the rounds of the business houses and private individuals to solicit a yearly subscription of about \$1,800, the amount required to properly carry on this charitable work.

Their efforts met with but poor success, for several other subscriptions lists were out also. At best, and with a few donations to swell the fund, barely \$300 a year could be raised. It was at this time that one of the ladies, the chairman of the present executive committee, determined to get up a grand Mardi Gras ball. Through the press a public meeting was called of all those interested in the infirmary. The response was most encouraging, and from the present signs of success the ladies of Honolulu, who are well known for benevolent work, will be able to raise the remaining \$1,500 a year.

Since the opening of the institution in June, 1899, some two hundred poor people have been admitted to the service by the regular hospital card of admission.

These cards have been placed in the hands of the secretary of the Associated Charities, the various clergy of the City, prominent Chinese merchants, and others, who it is known will give them only to those who are really deserving and unable to pay for medical advice. The board of trustees consists of the following named gentlemen, with power to add to their number: Robert Lewers, president; John F. Hackfeld, E. F. Dillingham, Carl Durol, John F. Humburg, Fitz Klamp, Dr. H. C. Sloggett.

PLANS MADE FOR A NEW HOSPITAL

Many Subscriptions Have Been Received but More are Required.

The annual meeting of the Kapiolani Maternity Home, to be held next Wednesday, will show that institution to be in a most prosperous condition. The year which has just ended has been the most successful since the establishment of the Home, and reflects great credit upon the directors, who have been unceasing in their efforts to promote its welfare.

This institution compares favorably with similar ones in the States, and its scope of charitable work is not exceeded by any other institution in this City. All Hawaiians are admitted free of charge and receive the most skilled treatment. During the past year the directors have contemplated vast improvements in the building and wish to supply Honolulu with a gynecological hospital where the Hawaiians will be able to secure free surgical care, and also to supply private wards open to every one in the Territory.

With this end in view they are appealing a few weeks ago for subscriptions to enable them to go on with the work. A considerable sum has been subscribed and it has stimulated them to greater action, and they now make another appeal for further subscriptions that they may be able to go on with the work. Plans for the new building have been completed by Architect Traphagen and are modern in every respect.

The operating room has been modeled after the principal hospitals on the Coast and in the East, but with such improvements as to enable them to carry out the principles of anti-septic surgery. The private rooms will be large and airy and will afford every means for rapid convalescence. All the surgical appliances and hospital fittings have been ordered from New York. Every instrument needed in such a hospital has been ordered and are of the latest and most improved pattern. As soon as sufficient subscriptions have been secured, work will be commenced on the building, and in a few months Honolulu will have a hospital it may well be proud of.

ORPHEUM TONIGHT.

"Tolman's Little Time" Will be Rendered Again.

The Honolulu Dramatic Club repeats "Tolman's Little Time" this evening at a prospectively large house. The comedy was so well staged and presented last Saturday evening that everyone seems to have thoroughly enjoyed the performance. The seat sale will be transferred from Wall, Nichols to the Orpheum box office this morning. A rehearsal was held last night to polish up the lines and introduce some fresh localisms. The fine weather should permit a good attendance, the comedy being well worth witnessing.

DANGER OF COLDS AND LA GRIPE.

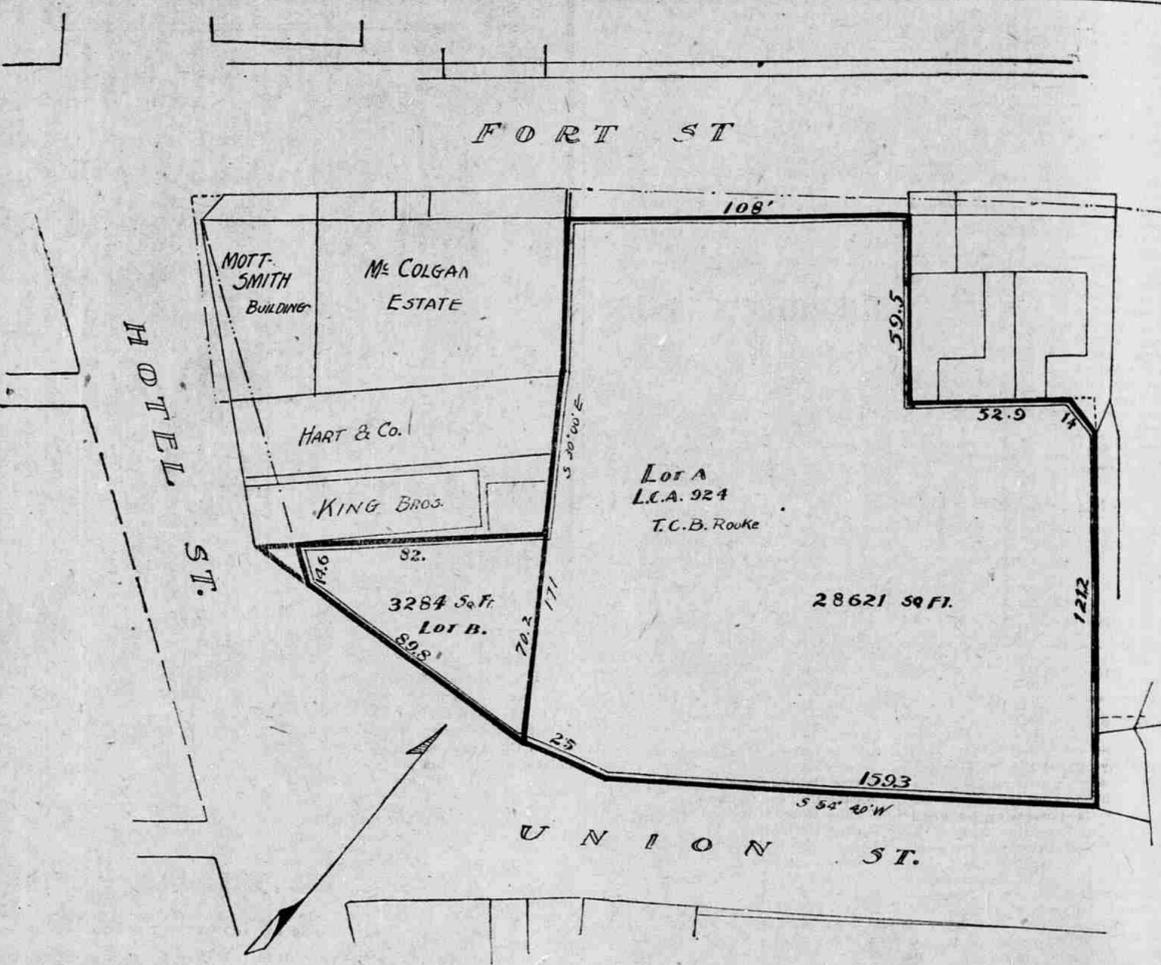

The greatest danger from colds and la gripe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of la gripe in less time than any other treatment. It is pleasant and safe to take. For sale by Benson, Smith & Co., Ltd., wholesale agents.
